SOCIAL MEDIA & TIKTOK CONTENT

Creative expertise | Short-form storytelling | MVP match highlights

SOCIAL MEDIA CONTENT CREATION

Create engaging visual content for social platforms, with a TikTok focus on short-form videos, story-led edits, and match-day highlights. Creative work combines video editing, graphic design, AI-assisted visuals, and platform-ready presentation.

TikTok and social creative capabilities

TikTok short-form videos

Create concise, vertically framed video edits with a clear visual story, planned scenes, pacing, transitions, and effects.

MVP (Most Valuable Player) highlights

Build player-focused match highlight videos and graphics for TikTok and social channels, pairing standout moments with event and match visuals.

Social media graphics

Prepare branded graphics, promotional creatives, match visuals, and campaign assets for online audiences.

Content planning and storytelling

Shape an idea into a simple storyboard and sequence of visuals designed for the intended audience and platform.

AI-assisted image-to-video

Use AI creative tools to develop visual concepts and image-to-video content for social posts and promotional edits.

Editing and finishing

Use CapCut editing, templates, transitions, effects, and platform-ready exports to polish short-form content.

A SIMPLE CREATIVE WORKFLOW

01 Plan	02 Create	03 Edit	04 Adapt
Choose the idea, audience, and highlight moments.	Storyboard scenes and prepare visuals, graphics, or AI-assisted assets.	Assemble a short-form video with pacing, transitions, effects, and clear emphasis.	Prepare a polished version for TikTok or the agreed social channel.

Tools in this workflow: TikTok, CapCut, Canva, Kling AI, Runway, Freepik AI, ChatGPT, and other tools selected for the project.

Creative content and visual support by Durrani Web Developers >

WEBSITE CREATIVE SUPPORT

Creative contribution to web projects

Visual assets and creative storytelling help businesses turn ideas into attractive digital experiences across websites, e-commerce, restaurant menus, and marketing campaigns.

Website banners and hero visuals

Design coordinated banner and hero-section visuals.

Landing-page graphics

Create professional graphics that guide attention and support the page message.

Product images and catalogs

Prepare cohesive product visuals and digital catalog content.

Restaurant menus and food visuals

Design digital menus and promotional graphics for food businesses.

Logos and brand identity

Develop logos and branding materials for a consistent business presence.

Website promotional videos

Produce promotional video content for websites and campaigns.

E-commerce and social assets

Create product-focused visuals for online stores and social media.

Digital idea presentations

Translate business ideas into clear, engaging digital stories.

Creative campaign content

Plan visual assets that carry a brand message across channels.
